### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Claims 20-32 have been cancelled.**

#### *Election/Restrictions*

2. Applicant's election of claims 1-19 (Group I) in the reply filed on 12/20/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
3. This application is in condition for allowance except for the presence of claims 20-32 to inventions non-elected without traverse. Accordingly, claims 20-32 have been cancelled.

#### *Allowable Subject Matter*

4. Claims 1, 2, 4-13 and 15-19 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose a precoding step that includes adding a modulo amount to precompensated signal points in response to the precompensated signal point having a value outside of a threshold range as recited in claim 1, or a precoder comprising a digital filter to generate feedback signal points from precompensated signal points, an adder to combine the

feedback signal and associated input signal points, and a modulo device to produce a signal within a threshold range from a signal point received from the adder, as recited in claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
